

Blue Mountains Forest Plan Revision #301397

I object to the Plan and the process in its entirety. I encourage the USFS to start again.

In my opinion

Fascism is unacceptable in a democratic republic

In my opinion

This version of the Forest Plan and its process is the worst thing for the USFS since

Gifford Pinchot

In my opinion

USFS policy should always be Preservation, not conservation

**"The world, we are told, was made especially for man—a presumption not supported
by all the facts."**
