Comments: Beth- Here is the complete comment from Sally LeClerc

Beth,

Please see Sally LeClerc's complete comment to the Grass Valley Project in email below.

Please attach it to the photos I sent you earlier.

Thank you,

Dev Kopp

Sally,

Your comment below and photos you sent earlier have been submitted to the Project Leader Beth Waterston (formerly Beth Stewart).

Thank you for contacting us and submitting them.

Sincerely,

Dev Kopp

Subject: Grass Valley Restoration Project

Dear Ms Stewart:

My husband, Robert, and I own a cabin at 484 Brentwood Dr. , Lake Arrowhead. During the 2007 fire, we learned the firefighters had marked our home as burned.

By the grace of God, it did not burn. Only the windows got scorched. However, there was considerable devastation to the forest, our backyard. Many trees just feet from our foundation, burned. Numerous trees fell and are still on the mountain side.

We have cleared some of the debris, but the huge trees that burned and those the firefighters chopped down remain.

We had Forest Care's service last year. However, they were not authorized to remove the national forest trees.

We would enthusiastically appreciate any assistance we could receive to remove these trees. We feel they are kindling for future fires.

Unfortunately, these pictures just don't show the extent of the fire's destruction.

Thank you for your concern.
