Subject: New O.S.V. plan... NO !

As a Cabin/Permit owner on the Stanislaus (Wagner) I strongly urge you to, please adhere to current guidelines, with regard to O.S.V. use in the forrest.

We are all aware, even with the best intentions, we'll meaning individuals often inadvertently stray into restricted areas; not to mention the occasional rogue visitors that disregard boundaries, ignorant of their harm to native plants, animals & the environment.

Please consider the input from major environmental groups and land/ lease holders as well as the best interest of the forrest prior to implementation of less stringent guidelines for O.S.V.s on the Stanislaus.

Pictures attached- view in pdf

We are an active and vocal group, The National Forrester H.O. Association, The C.S.E.R.C., The Wagner Tract, & a multitude of others, I however am writing as an individual and do not write on behalf of others in the above organizations, despite the fact that most are of a like mind with regard to the proposed change to O.S.V. REGULATIONS.

I recognize the desire of others to participate in varied outdoor activities and respect their rights to do so, the Snowmobiles already have substantial freedom of use on the forest and needn't encroach further on the plants, animals or sensitive ecosystems.

Thanks for your time & Consideration & the amazing job you already do with limited budget and staff, we are indeed... grateful and indebted for your service.

William & Carolyn Harris

Cabin #15, Wagner Tract,

Hwy 108 @ Clarks Fork Rd.
